About Maturity and Drink Dates: Most reviews in The Wine Advocate include a period during which the wine should ideally be consumed. We express it as a range of years (Drink Dates) and we use that range to calculate a 'Maturity' for the wine as of the current date. Maturity values are: Young - the early drink date is in the future; Early - first third of the drink date range; Mature - middle third of the range; Late - last third of the range; Old - the late drink date is in the past.
